

MOUNTAIN SPORTS EVENT LIABILITY RELEASE AGREEMENT

WARNING AND ACCEPTANCE OF RISKS

Mountain biking, trail running and other mountain activities (hereinafter referred to collectively as “mountain sports”), including the use of lifts, have inherent and other risks of injury and death. These risks include but are not limited to falls, contact, or collisions with natural or manmade objects due to: variations in terrain, steepness of terrain, trail side drop-offs, slippery conditions, humps, holes, rocks, trees, and other forms of forest growth or debris (above or below the surface), all forms of naturally occurring wildlife, mud, stream beds, lift towers, utility lines, poles and guy wires, vehicles and equipment, ATV’s, snowmaking equipment, trail and race course fences and gates, control nets and the absence of such fences and nets, and other forms of natural or man-made obstacles on or off designated trails, as well as collisions with equipment, obstacles, other event participants or spectators. Trail conditions vary constantly because of weather changes and use by participants, employees, and the public. These are some, but not all, of the risks of mountain sports. All of these risks can result in serious and/or fatal injury.
